It recommended that a similar system be put into effect for white prisoners.

3,000 Acres Muck In Okeelanta Area In New Drainage Dist.

Three thousand acres of fertile muckland, lying west of State Road 25 and north of the Bolles Canal, joining the South Florida Conservancy District, comprise the Lake Region's newest drainage district—Okeelanta Drainage District. Action was taken Wednesday night when owners of 2652 acres of the total gathered in Belle Glade to perfect plans for the new set-up.

Lawrence Will, pioneer land owner in the Okeelanta area, was chosen temporary chairman of the new district and Clarence A. Bailey was named secretary and treasurer. Other members of the committee are as follows: James Summerlin, N. N. Starling, T. W. Knight and John Newhouse. Jack Johnson of Belle Glade was named the district's attorney.

The land has been intensely farmed in the past few years since Road 25 was built. The hurricanes and floods of last fall rendered the land unusable and owners have been in a quandary as to what to do. They are looking forward to the over-all flood control plan which may become a reality within the next decade, but, in the meantime it is necessary that something be done so that the lands can be farmed.

Present plans of the district call for immediate action. Action thorough enough that the lands can be pumped and farmed next fall.

From where I sit ... by Joe Marsh

**Do You Have
Noisy Neighbors?**

A lot of the neighbors were suddenly annoyed by Jeb Crowell's hammering at night. Jeb was building himself a new front porch—and the only time that he could give to it was after sundown.

Finally we decided the best thing to do was all pitch in and help—and get the carpentry over with as soon as possible. We did. Enriched the porch next evening—and Jeb gratefully treated us to ice cold beer and cider.

From where I sit, that's what being a good neighbor means. In-

stead of complaining about the other fellow's habits, try to understand and share his interests.

So if my practising on the flute annoys you, come on over, neighbor, with your fiddle or guitar and join me! Maybe it will end up in our knowing and appreciating one another better... in an evening of good-fellowship. And I'll promise to provide the beer that goes with evenings of good fellowship!

SHORT-CUT to Accident--

The quickest way across the street can be the most dangerous way. To cross in the middle of the block, rushing out from between parked cars, can be and too often is a short cut to accident — *and death!*

In Florida, 170 people were injured, 71 fatally, from these causes alone in our *first peace year*. In 75% of pedestrian accidents the victims were walking in such a way as to contribute to their own demise. Actually, drivers in relation to pedestrians are more careful.

Florida accident records for 1946 indicate that jaywalkers are even more plentiful and careless and are pushing the pedestrian casualty rate to a new high. Someone must do some life-saving — and that someone is *you*.

When you cross a street or highway be personally responsible for your own safety. Don't expect the other fellow to look out for you. Cross with the light if there is one — with greatest caution if there isn't. It's up to you to walk safely and live longer.

Japanese Suicide Boat To Be Shown In Pahokee Tuesday

The Navy Club of U. S. A. will have on exhibition in the city of Pahokee one of their mobile exhibits on Tuesday, Feb. 10th. This exhibit will be on display in front of Bolton's Rexall Drug Store between the hours of 9:30 a. m. and 9:30 p. m. There is No Admission Charge. However, voluntary donations are gratefully accepted and funds so raised help the Navy Club of U.S.A. carry on their extensive welfare and rehabilitation program.

The feature of this exhibit is a captured Japanese suicide PT boat. The PT boat is known in Japan as the Shinoyote, which translated means earthshaking boat. It is 18 feet long and is powered by a Japanese built six-cylinder engine of American design and is capable of a speed as high as 50 knots per hour. In the bow of the ship there was a 675-pound anti-submarine depth bomb rigged with a contact head, and it was the suicide pilot's job to ram this ship into one of our vessels. This suicide pilot was expected to join his ancestors after the fulfillment of his mission, and the Shinoyote was by the Japanese for the defense of their home islands. This PT boat was captured intact at Anami O'Shima in the Ryuku Islands, and was brought to this country by the Navy Department for test and observation. It is now loaned to the Navy Club of U.S.A. and is being toured nationally by them.

Plans to participate in the community work day set aside Saturday, Feb. 7, for clearing the lot at the northwest corner of the Canal Point school grounds in preparation for its use as a children's playground were made by members of Post 242 at a meeting in the Canal Point Legion Home Monday night. County Ministers Gather In Pahokee

On Monday, Feb. 2, at 12:00 noon, ministers of Palm Beach County and the Lake area, gathered at the Pahokee Baptist Church for a fine chicken dinner and times of Christian fellowship. Never to be forgotten were those mountains of fried chicken and other delicacies so appealingly served. This meeting was sponsored by the Pahokee-Canal Point Ministerial Association, whose great pleasure it was to have a part in the beginning of what may develop into a closer bond between all the ministers of the county.

Fred T. Barnett was the special speaker for the occasion, and gave all much food for thought. Present at the meeting were two visiting ministers, Dr. H. E. Ressler of Chicago and Rev. H. Jemison of Cincinnati.

Due to sickness, Rev. W. T. Blair, president of the Association, was absent and Rev. C. A. Moberg was appointed temporary chairman.

Much of the success of the meeting may be contributed to the part played by the Pahokee Baptist Women's Auxiliary, which was responsible for the fine meal and entertainment. Those serving on the table committee were Mrs. C. T. Shirley and Mrs. Vinson Henderson. Those serving on the kitchen committee were Mrs. F. G. Gillis; Mrs. Horace Unwin; Mrs. T. W. Knight; Mrs. J. H. RECENT OPERATIONS

By Paul Rardin

Some people have all the luck! State Representative B. Elliott and State Representative-Elect John E. Bollinger have automatically won seats in the forthcoming session of the legislature without opposition. Qualifying date—Feb. 1—passed with no other person in the county seeking their offices.

The announcement by County School Superintendent John I. Leonard on Tuesday of this week that he would not run for re-election threw the race for his job wide open. It was back in 1935 that Mr. Leonard won his job at the hands of the voters. Since that time he has done a splendid job as head of the schools. Whoever succeeds him will have a big job to keep stride with Mr. Leonard's accomplishments.

T. C. Richardson announced yesterday that permission has been granted in Washington to organize a Federal Savings and Loan Association in Pahokee. The permission was granted, Mr. Richardson said, after months of preparation and negotiation. Those interested in such an organization are asked to get in touch with Pahokee's mayor at his office—phone 4891.

Yesterday I was looking through the 1936 file of The Everglades News. Dan Chappell was a candidate for governor. His slogan was "Dan's the Man." Today another candidate—young Dan McCarty of Fort Pierce—is using the same slogan in his race for governor.

In the 1936 file I noticed a handsome picture of Grady Burton of Wauchula who was seeking the governor's job at that time. Today he is a candidate for attorney general.

"We need English in our schools" was the popular slogan in 1936 of Colin English of Ocala who sought and won the state superintendent's job. Today Mr. English is seeking the job of governor.

It was in the run-off in 1936 that Raleigh Petteway and Fred Cone locked horns. Petteway had been a popular official in Tampa for many years and Cone had been a country banker and politician from Lake City for more years than he ever admitted. If ever two opposites were lined up on opposite sides of the fence this campaign brought it about. The friend of the "deer peepee" from Lake City won by a handsome majority. Petteway's home town of Tampa turned him down cold in the run-off. Months later Petteway moved from Tampa to Miami to make his home. Fred Cone still lives in Lake City.

A friend of mine at South Bay—James Summerlin—has quite a collar patch near Vinegar Bend. In fact he has forty acres of collards and they are all ages. He started cutting this week. There is a good demand. The price is okeh. Some folks like their collards hot. I'll take mine cold with syrup. There aren't many things any better than cold collards and syrup.

Chaplain Slawson Now At Eglin Field

Chaplain Merritt Slawson, former pastor of the Canal Point Methodist church, is now located at Base Chapel, Eglin Field, Florida, according to word received in Canal Point by Dr. Wilburn C. Young. Chaplain Slawson has been in the army since he left Canal Point and served overseas for many months. His letter to Dr. Young would lead one to believe that he is happy to be back on Florida soil. He reported his family well and happy.

Many of you have read the exciting story "The Hucksters," many have not. To those who have not let me say, this is really a very delightful story and all of the characters chosen by the producers of the show are as authentic as one can expect to see in any performance.

The Hucksters comes to the Prince Theatre this Sunday-Monday. It has Clark Gable and Deborah Kerr as the leading characters and Sidney Greenstreet, Adolphe Menjou, Ava Gardner and Edward Arnold as the next in the shining bracket. Of course there are many other characters in the picture, and all of the players assigned to these roles do a magnificent job in their repertoires.

I am sure you'll agree with me that Clark Gable has lost none of his ability as an actor since going to war, and Deborah Kerr is a lovely Scotch lass. I know you'll like every inch of it.

See you at the movies—Mal.

CHURCH OF CHRIST, SCIENTIST

"SPIRIT" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, February 8.

The Golden Text is: "Ye are not in the flesh, but in the Spirit, if so be that the Spirit of God dwell in you" (Romans 8:9).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For what man knoweth the things of a man, save the spirit of a man which is in him? even so the things of God knoweth no man, but the Spirit of God. Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God" (1 Corinthians 2:11-12).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man was not created from a material basis, nor hidden to obey material laws; which Spirit never made; his province is in spiritual statutes, in the higher law of Mind" (307:26).

Grand Jury Says County Air Field Among The Best

The grand jury Monday in a report on county facilities acclaimed Morrison Field "one of the best in the United States."

In one phase of its investigations during recent weeks the jury questioned Col. Lawrence Hickman, county aviation director, and studied many different aspects of the operation of the airport.

Col. Hickman, who was recently employed by the board of county commissioners as county aviation director told jurymen it will be sometime in the future before the county gets title to the field. He described the process by which the county will finally obtain title to the installation.

According to Col. Hickman, U. S. Army Engineers will take an inventory of the field and make a report to the WAA. The county will negotiate with the latter for final possession.

He said Congress had recently passed an act making it easier for the county to lease facilities at the airport. Col. Hickman revealed that the airport now has 25 tenants.

HURRY! HURRY!

Join the 11,200 pedestrians KILLED last year!

Don't go home to-night. Go to the hospital—or the morgue!

Why be around to-morrow, next week, or next year? Go on—dash through traffic when and where you shouldn't. Ignore red lights and safety signs. Make a face at the traffic cop who's trying to protect you as you tear by — hurrying to go — where?

Be impatient. Hurry, hurry and join the 11,200 pedestrians who were killed in the United States last year. 195 of them were neighbors of yours in Florida.

But perhaps you don't like the idea. Maybe you enjoy living and don't want to rush into Kingdom Come prematurely. That's different—and the answer is simple. Don't hurry. Wait just the few seconds it takes the light to go green. Don't take a short cut across the middle of the block, drivers aren't looking for you there. And no matter when or where you cross a highway, be alert. Walk safely and live longer.

Dwight Rogers Is Grateful For Job Without Opposition

To My Friends of the Sixth Congressional District:

I take sincere pride in the confidence the people of the Sixth Congressional District have shown in me as reflected in the fact that for the second consecutive time they are allowing me the Democratic nomination for Congress without opposition.

In return for their confidence, I again pledge to them "That Service will be my Watchword and Achievement by Goal."

I am particularly grateful that I shall not have opposition in the primary, because this fact will enable me to devote my full time, thought, and energies to legislation which is urgently vital in the interest of all of Florida, but particularly in the interest of the Sixth District.

I refer, naturally, to the emergency flood relief and long range flood control and water conservation measures which will be called up for consideration in this session of Congress. To the enactment of this legislation, I shall devote my best efforts and my full influence.

Sincerely yours,
Dwight L. Rogers
Member of Congress

W. Herman Arnold of the company said Saturday work was expected to begin late this week. The building, he said, will be a large open one designed for exhibition purposes.

TETANUS SHOTS

Tetanus shots are being given school children, it was pointed out by Miss Howell, school nurse. Three shots are given for the first treatment and must be followed yearly with another shot. Should a wound occur in the meantime it is necessary to have a booster shot to aid the treatment in throwing off any ill effects.

Mr. and Mrs. Edwin H. Connell and son, Eddie, left Tuesday for Gainesville where they will reside while he studies dentistry at the University of Florida.

Leonard Won't Run Again For School Superintendent

Dr. John I. Leonard, Palm Beach county school superintendent for almost 12 years, said Tuesday afternoon he will not run for reelection.

He revealed he is considering "three college offers" and will decide on one when he completes his present four-year term.

Leonard's announcement left the field wide open to qualified aspirants to his major county office.

As county superintendent Leonard also is ex-officio president of Palm Beach junior college now moving into enlarged quarters at Morrison Field. The county school board Tuesday afternoon favorably discussed appointing someone to serve exclusively as president and administrative head of the college by July 1.

Another political development Tuesday was action of George A. Taylor, present school board member from Belle Glade, in qualifying to run for Peace Justice in District 8.
